DIARY NOTES

25X1A

DD/S [REDACTED]

13 September 1960

1. George Carey telephoned to say that Emmett Echols' statement at the Senior Staff Meeting yesterday morning concerning the United Givers Fund had been interpreted by many as meaning that the Agency used appropriated funds to make up the deficit in our contribution. I assured him that this was not correct and subsequently asked Emmett to write a brief memorandum to the Deputies correcting this misunderstanding.

3. I met with Messrs. Garrison, [REDACTED] to discuss the memorandum from the DD/P requesting that the Cover and Commercial Staff, for which insufficient space is available in the DD/P Area, be located elsewhere in the new building. We have concluded that in order to provide for contingencies such as Projects PBSUCCESS, JMARC, CHALICE, etc. we should leave some unassigned space in the building. The Foreign Documents Division would appear to be the obvious unit that could be left out with the least inconvenience. They are scheduled to occupy about 25,000 sq. ft. If we assign approximately 7,000 sq. ft. to the Cover and Commercial Staff this would leave about 18,000 sq. ft. for contingencies, staging areas, etc. I have discussed this possibility confidentially with George Carey and J. Bagnall who do not believe that there is any strong argument for putting FDD in the new building and who would, in fact, prefer to have it stay where it is. I have also discussed this with General Cabell who agrees on the principle; however, he reserves judgment on whether FDD or some other unit should stay out of the building.
